# _____	Name _____		
# _____	Name _____		
SPED 60199	Thesis I***** (6)		

*****After completing 6 hours of Thesis I, register for Thesis II hours until thesis is approved

Notes

- 1 The minimum number of graduate hours required for a masters degree is **32** and include prescribed courses associated with research, foundations, and the appropriate option (thesis or non-thesis). Although hours required for licensure, endorsement, or certification may go toward a master's degree, the master's degree must include the prescribed courses as indicated on this page.
- 2 No more than 12 graduate hours (if approved by your advisor **and** meet the currency and grade requirements) may be **transferred** from another institution **and/or from a nondegree program even if at KSU**. Additionally, only **4** hours of graduate **workshop credit**, if approved by your advisor and meet the currency and grade requirements, may apply towards your master's degree and these hours would be counted in the maximum of 12 graduate hours outlined in the previous sentence.
- 3 Generally, **application for graduation** is required the first Friday of the semester you plan to graduate. It is your responsibility to submit the application to the Office of Graduate Student Services by the due date. No reminder is provided.
